To whom it may concern,

It is my pleasure to write this letter of recommendation for Mr Thomas (Tom) Lees for the position of trainee accountant at GILBERTS Chartered Accountants.

I have known Tom since September 2021, when he started his studies at the University of Bristol, both as his Academic Personal Tutor and as a lecturer for courses on Mathematical Investigations and Linear Algebra. In Mathematical Investigations, Tom participated in several group projects and delivered presentations on them. He exhibited remarkable dedication and teamwork skills, resulting in a very high mark for the course. In Linear Algebra, despite the complexity of the abstract material covered, Tom achieved a final course mark with classification 2:1. During his studies, Tom has also performed extremely well in courses which might be relevant to this internship, such as Programming in Python, earning a comfortable first-class mark (80/100). For his third year, I can observe from the marks that are not yet accessible to the students, that Tom is on track to obtain first-class classification and complete his studies with a BSc degree this year.

In consequence, I recommend Tom Lees for the trainee accountant position at GILBERTS Chartered Accountants with no hesitation. Thank you for your consideration of this letter. Should you have any further questions, please feel free to contact me.

Sincerely yours,

Farhad Babaei
Lecturer in Pure Mathematics
