

Farhad Babaei, Assistant Professor
School of Mathematics,
University of Bristol
Fry Building, 2.13
Woodland Road
BRISTOL, BS8 1UG

April 17, 2024

To whom it may concern,

I hereby declare that Dr. Roberto Gualdi, born on November 9th, 1990, passport number YA7277335, is cordially invited to participate in the focused research meeting on “Non-archimedean dynamical tropicalisation and Monge–Ampère Equations”, with me as the principal investigator. This meeting is funded by the Heilbronn Institute for Mathematical Research (UK), with a total grant amount of £6500.

These grants are awarded after a competitive evaluation by the panel of the Heilbronn Institute for Mathematical Research. They fund focused research groups (of at most 8 people) working on adventurous and challenging mathematical problems and discussing significant new developments in mathematics.

The participants of the “Non-archimedean dynamical tropicalisation and Monge–Ampère Equations” conference will meet in person at the University of Bristol from July 15th to July 19th, 2024.

Thank you for your time and consideration. If you have any questions, please do not hesitate to contact me.

Sincerely,
Farhad Babaei
