08 March 2024

Dear Dr Babaee,

On behalf of the Heilbronn Institute for Mathematical Research (HIMR), I am writing to confirm the HIMR Focused Research Grant award of up to **£6,500** for your proposal for a 1-2 week-long focused research group titled 'Non-archimedean dynamical tropicalisation and Monge–Ampere Equations' to be held in 2024 (exact date to be decided) at the University of Bristol.

Funds can only be used to meet the cost of activity or activities that meet the agreed aims and objectives as applied for in your proposal and awarded.

If HIMR is the main funder of your activity you will be issued with a budget code for your expenditure. If the activity will receive funding from multiple sources you should contact the relevant [Costing Specialist](#) from Finance Services who will advise on the process for obtaining a budget code.

The funds should be managed according to standard University rules and guidelines. All expenditure should be processed within eight weeks of the activity taking place, ideally at your earliest opportunity. If it looks like you will not require the full amount of the funding awarded, please let us know as soon as possible so we can reallocate the funding to another group.

You are encouraged to contact your local administration team to discuss management of the funds or organisation of the activity if support is required.

The Chair requires a brief report (a few paragraphs) that highlights the key successes of your event and will be published in our annual report. Please complete and submit your report by clicking [here](#).

Please find attached our HIMR logo which should be used when publicising this meeting.

HIMR expects that traditionally under-represented groups in mathematics are strongly encouraged to participate in your event. Please visit our website <https://heilbronn.ac.uk/diversity/>

All funding awarded will be published on our Heilbronn website and detailed in our annual report, including information of sums awarded, names of organisers and speakers.

Should you have any questions relating to the above, please do not hesitate to contact me.

Kind regards,

**Mrs Eleanor Machin**

Heilbronn Institute for Mathematical Research Manager

### **Conditions of the award**

Funds can only be used to meet the cost of activity or activities that meet the agreed aims and objectives as applied for in your proposal and awarded.

On all online and printed materials (including press releases, posters, exhibition materials and other publications) related to activities funded by this HIMR grant, the Grant Recipient must make reference to the Heilbronn Institute for Mathematical Research (HIMR), and must include the HIMR and relevant branding.

To accept the grant, you agree that you will administer the grant in a manner consistent with these relevant conditions.

To accept the terms of this grant offer, sign below and return to:  
[heilbronn-administrator@bristol.ac.uk](mailto:heilbronn-administrator@bristol.ac.uk) within two weeks of the date of this letter.
