

Farhad Babaei
Assistant Professor
School of Mathematics
University of Bristol
Fry Building, Room 2.13
Woodland Road
BRISTOL, BS8 1UG

May 26, 2025

To whom it may concern,

I am delighted to write in strong support of Ms. Natalia Kaye's application for the position of Portfolio Analyst at Brunel Pension Partnership.

I have known Natalia since September 2021 in multiple academic capacities: as her personal academic tutor, and as her lecturer for both Mathematical Investigations and Linear Algebra. During her time at the University of Bristol, she consistently ranked among the top 5% of our student cohort, which comprised approximately 400 students. Natalia graduated with a comfortable first-class degree, and her outstanding academic record and character make her an excellent fit for the position.

In the Mathematical Investigations course, Natalia worked on three group projects requiring collaborative research and presentations. Despite the limited mathematical experience typical of first-year students, Natalia routinely took on leadership roles, often presenting the more challenging aspects of the mathematics involved. In Linear Algebra, a course centered on abstract reasoning, she excelled both in comprehension and application, achieving a final mark of 86/100.

As her academic tutor over three years, I was consistently impressed by Natalia's maturity, initiative, and engagement. She demonstrated an exceptional balance of analytical ability and interpersonal skills, frequently taking part in student-led initiatives and organizing extracurricular academic events.

Her academic breadth is particularly relevant to the role she is pursuing. Natalia completed a diverse set of mathematically rigorous modules with first-class marks, including Programming in Python, Probability, Statistics, Multivariable Calculus, Complex Functions, and Quantum Mechanics. Her analytical strength, combined with her developing interest in Mathematical Finance during her final year, positions her very well for a data-driven, finance-oriented role like the one at Brunel Pension Partnership.

Natalia has demonstrated the aptitude, motivation, and intellectual curiosity required to succeed in a demanding analytical environment. I am confident that she will bring the same enthusiasm, discipline, and critical thinking to your team as she did to her academic work at Bristol. I recommend her for the role without reservation.

Thank you for considering Natalia's application. Please feel free to contact me should you require any further information.

Sincerely,
Farhad Babaei
