Some students that took Qualifying Examinations during the 2022/23 academic year may have "Pending" assessment results. These students completed all their assessments but as a result of industrial action some assessment results were delayed. They were permitted to progress based on a subset of their Qualifying Examination marks.

Students studying in the 2019-20/2020-21 academic years faced severe disruption due to the exceptional effects of the Covid-19 pandemic, impacting the 2020 and 2021 assessment periods, and this should be taken into account in reading the transcript. For some degree programmes, parts of assessments were cancelled for reasons entirely beyond students' control; where this is the case, students are deemed to have passed and these assessments are listed without an accompanying mark.

Students on the four year Master of Mathematics degree receive a double classification, one at the end of their third year based on their second and third year work (Parts A and B in the ratio 40:60), and one at the end of their fourth year based on their fourth year work alone (Part C). In 2019-20, due the pandemic, the safety net for their fourth year classification is the classification previously achieved in their third year. At Part A students are permitted to take an additional optional course and offer 6 papers from A3-A11. Students who do not obtain Honours at Part C are awarded the BA.

Academic Credit

The University does not routinely apply credit weightings to its programmes and its courses are not generally taught on a modular basis. We take each year of full-time undergraduate study to equal 120 UK credits and 180 UK credits for Masters-level postgraduate study according to the Higher Education Credit Framework for England. In relation to the European Credit Transfer Scheme (ECTS), this is equivalent to 60 credits for undergraduate study and 90 credits for Masters-level postgraduate study.
