Personal details

Personal details

First / **given name**	Mohsen Ali M
Second given name	
Third given name	
Surname/**family name**	Alhajouj
Date of birth	24 April 1987
Preferred first/given name	Mohsen Ali M
Previous surname	
Country of birth	Saudi Arabia
Legal nationality	Saudi Arabian
Dual nationality	
Country of residence	Saudi Arabia
Have you previously studied with us at the University of Bristol?	No

Contact details

Home address

Please provide your permanent residential address. If you have another address and would prefer for us to contact you at that address instead you have the opportunity to add a correspondence address in the next section.

By ticking the checkbox below and submitting your completed online application form, you acknowledge the University of Bristol will use the information provided from time to time, along with any further information about you the University may hold, for the purposes set out in the [University's full Data Protection Statement](). Applicants applying to the collaborative programmes of doctoral training should also read the [Data Protection Statement]() for collaborative programmes of doctoral training.

The information that you provided on your application form will be used for the following purposes:

- To enable your application for entry to be considered and allow our Admissions Advisors, where applicable, to assist you through the application process;
- To enable the University to compile statistics, or to assist other organisations to do so. No statistical information will be published that would identify you personally;
- To enable the University to initiate your student record should you be offered a place at the University.

All applicants should note that the University reserves the right to make without notice changes in regulations, courses, fees etc at any time before or after a candidate's admission. Admission to the University is subject to the requirement that the candidate will comply with the University's registration procedure and will duly observe the Charter, Statutes, Ordinances and Regulations from time to time in force.

By ticking the checkbox below and submitting your completed online application form, you are confirming that the information given in this form is true, complete and accurate and that no information requested or other material information has been omitted. You are also confirming that you have read the Data Protection Statement and you confirm the statement below.

I can confirm that the information I have provided is true, complete and accurate. I accept that the information given in my application will be stored and processed by the University of Bristol, in accordance with the *UK General Data Protection Regulation and Data Protection Act 2018*, in order to:

- Consider my application and operate an effective and impartial admissions process;
- Monitor the University's applicant and student profile;
- Comply with all laws and regulations;
- Ensure the wellbeing and security of all students and staff;
- If my application is successful to form the basis of the statement made within my application.

If the University of Bristol discovers that I have made a false statement or omitted signification information from my application, for example examination results, I understand that it may have to withdraw or amend its offer or terminate my registration, according to circumstances.

Mohsen Alhajouj

King fahd road,72331 Skaka, Saudi Arabia

The Aim

Aspiring academic aiming to pursue a Master's in Mathematics as a step toward a Ph.D. Passionate about teaching, research, and advancing knowledge in the field.

Profile Statement

Dedicated and detail-oriented mathematics educator with extensive experience as a Teaching Assistant at Al Jouf University. Skilled in facilitating foundational and advanced mathematics courses, providing individualised student support, and contributing to academic excellence. Strong commitment to fostering a positive learning environment and supporting student development through educational and volunteer initiatives.

Professional Experience

Teaching Assistant / Al Jouf University

Al Jouf University is a leading public university in Saudi Arabia, located in Sakaka, Al Jouf region.

- Department of Mathematics
- **2011** – Present
- Skaka, Saudi Arabia

Duties:

- Supported undergraduate mathematics courses
- Taught Calculus ,Principles of Statistics and Probability and Microeconomics
- Provided tutoring and academic managed at the university's Mathematics Center.
- prepared course material preparation, grading, and classroom management.
- Facilitated student learning through structured exercises and mentorship.

Education

- **2011** – Bachelor of Mathematics, Al Jouf University, Saudi Arabia
- **2013** – Academic Language Program, LCI English Center, Denver, Colorado, USA
- **2007** – High School Diploma, Saudi Arabia

Volunteer Work

Academic Tutor – King Fahd Public Library

- Provided mentoring and subject support to students and community members.
- Assisted peers and new students by sharing knowledge of university resources.

Transferable Skills

- Languages: Arabic (Native), English (Fluent)
- Computer Skills: Proficient in Microsoft Word, Excel, PowerPoint
- Soft Skills: Excellent communication, time management, problem-solving, academic mentoring

Statement of Purpose – Mohsen Alhajouj

Mathematics has always captivated my interest, indeed, from a young age. It rapidly became my favourite subject in high school, and I found great excitement in tackling challenging problems. Whereas numerous of my classmates drawn nearer exams with stretch, I saw them as openings to test my capacities and think inventively. This energy for problem-solving and coherent thinking drew me to seek a bachelor's degree in Mathematics at Al-Jouf College in Saudi Arabia, from which I graduated in 2011.

My undergrad has given me a profound appreciation for teaching, fortifying my expository abilities and fueling my craving to investigate scientific concepts at a more progressed level. Throughout my undergraduate studies, I immersed myself in various group projects and collaborative assignments, which refined my teamwork, communication, and analytical skills. Courses in calculus, differential conditions, variable-based math, and numerical examination established my scholastic improvement and formed my intrigue in immaculate Mathematics. Exploring abstract mathematical theories and their real-world applications motivated me to dive more deeply into the field and advance and refine my problem-solving capacities. After graduation, I joined Al-Jouf College as an Educating Right hand, where I was included in conveying centre science courses such as Calculus I and Direct Variable based math. In expansion to planning course materials and evaluations, I prioritised making an intelligent and comprehensive classroom environment.

I empowered understudies to take an interest, inquire questions, and engage in discussion, fostering a collaborative air that advanced more profound learning. This encounter set my energy for instructing and confirmed my want to contribute to the academic community. I found extraordinary fulfilment in making a difference in understudies ' scientific concepts and directing them through complex problem-solving forms. In expansion to education, I effectively took an interest in workforce gatherings and workshops to improve the quality of mathematics instruction at my institution. These encounters gave me meaningful experiences in educational module advancement and viable instructing strategies, encouraging and strengthening my commitment to higher instruction. Also, I helped workforce individuals conduct inquiries about ventures that investigated hypothetical

perspectives of science, reinforcing my capacity to lock in academic requests and extending my appreciation for the field. Recognising the significance of solid communication in the scholarly community, I completed a Seriously English Program at LCI English Center. This preparation improved my scholarly composing, perusing comprehension, and talking abilities, guaranteeing I am well-prepared to meet the dialect requests of graduate-level ponder. My long-term aspiration is to seek a career in higher instruction as an analyst and a teacher, unequivocally centring on Mathematics. I am eager to deepen my understanding of this critical field through advanced academic study at your esteemed institution. My instructive foundation, instructing encounters, and excitement for arithmetic will empower me to succeed in your program and contribute thoughtfully to your community. Through the Mathematics master program, I plan to refine my explanatory capacities, improve my inquiry-about abilities, and pick up more profound bits of knowledge into numerical speculations that will shape my future career. I am energised by the opportunity to develop scholastically and professionally, and I look forward to the challenges and openings in my graduate studies.

Graduation Certificate

Al Jouf University certifies that :

ALHAJOUJ, MOHSEN ALI M
National ID (1055432866)
Student ID# (428200330)

Has been awarded the Bachelor Degree in Mathematics.
The Degree is conferred by College of Science from Aljouf University in the Second Semester 2010/2011.
With a GPA of 3.93 out of 5.00
Grade: Very Good

<u>لمن يهمه الأمر</u>

هذا الخطاب للتوصية علي الأستاذ/ بدر لافي الرويلي المتخرج من قسم الرياضيات كلية العلوم بالجوف. لقد كان الأستاذ / بدرالرويلي طالبا بقسم الرياضيات، كلية العلوم وذلك أثناء دراسته لمرحلة بكالوريوس العلوم تخصص رياضيات. حيث كان أحد طلابي الذين قمت بالتدريس لهم في أكثر من مقرر سواء كان مقرر إحصاء أو رياضيات، وفي تلك الأثناء وجدته طالب متميز بين رفاقه ، مجد ،مؤدب ويطيع أوامر أساتذته وينفذ كل ما يطلب منه من واجبات واعمال دراسية . كما وجدته كطالب بالقسم علي خلق ومتعاون مع زملائه وينفذ جميع الأوامر التي تعطي له من قبل أساتذته بالقسم .
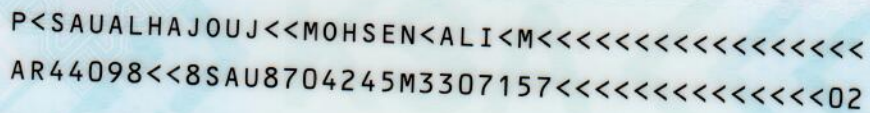

وهذا الخطاب توصيه مني له وذلك لتقديمه لمن يهمه الأمر .

مع تمنياتي له بالتوفيق والنجاح في حياته العلمية والعملية

د. أحمد محمد كامل طرابيه

Agent Authorisation Form

This form is to be completed by applicants to postgraduate courses who wish to use the services of an official University of Bristol agent.

Applicant Details	
First name	mohsen
Last name	Alhajouj
UCAS or Student ID	-
Email address	malhajouj@gmail.com
Date of Birth	24/4/1987
Course name	Mathematics Msc Research
Agency name	SIUK

Data Protection Statement

By signing this Data Protection Statement and agreeing to the Agent submitting your completed online application form, you acknowledge that the University of Bristol will use the information provided from time to time, along with any further information about you the University may hold, for the purposes set out in the University's full Data Protection Statement. Applicants applying to the collaborative programmes of doctoral training should also read the Data Protection Statement for collaborative programmes of doctoral training.

The information that you provided on your application form will be used for the following purposes:

- To enable your application for entry to be considered and allow our Admissions Advisors, where applicable, to assist you through the application process;
- To enable the University to compile statistics, or to assist other organisations to do so. No statistical information will be published that would identify you personally;
- To enable the University to initiate your student record should you be offered a place at the University.

Declaration

All applicants should note that the University reserves the right to make without notice changes in regulations, courses, fees etc at any time before or after a candidate's admission. Admission to the University is subject to the requirement that the candidate will comply with the University's registration procedure and will duly observe the Charter, Statutes, Ordinances and Regulations from time to time in force.

By signing this Data Protection Statement and agreeing to the Agent submitting your completed online application form, you are confirming that the information given in this form is true, complete and accurate and that no information requested or other material information has been omitted. You are also confirming that you have read the Data Protection Statement and you confirm the statement below.

I can confirm that the information I have provided is true, complete and accurate. I accept that the information given in my application will be stored and processed by the University of Bristol, in accordance with the *UK General Data Protection Regulation and Data Protection Act 2018*, in order to:

- Consider my application and operate an effective and impartial admissions process;
- Monitor the University's applicant and student profile;
- Comply with all laws and regulations;
- Ensure the wellbeing and security of all students and staff;
- If my application is successful to form the basis of the statement made within my application.

If the University of Bristol discovers that I have made a false statement or omitted signification information from my application, for example examination results, I understand that it may have to withdraw or amend its offer or terminate my registration, according to circumstances.

Finally

You will not be able to change your application once you have submitted it, but you can upload additional documents to support your application via your Applicant Portal. You will receive an auto-acknowledgement email confirming the submission of your application within 24 hours.

I have read, understood and agreed to the above
